Oriental organized crime syndicates

Chinese Triads

- **Origin**: The Triads originated in China and have a history dating back to the 17th century.

- **Activities**: They are involved in various illegal activities, including drug trafficking, human trafficking, extortion, and money laundering.

- **Structure**: Triads have a hierarchical structure with a clear chain of command. They operate in cells, making it difficult for law enforcement to dismantle the entire organization.

Japanese Yakuza

- **Origin**: The Yakuza, also known as the Japanese mafia, have roots going back to the Edo period in Japan.

- **Activities**: They engage in a wide range of criminal activities, such as drug trafficking, gambling, prostitution, and protection rackets.

- **Structure**: The Yakuza have a highly organized structure with a strict code of conduct. They are known for their distinctive tattoos and ritualistic practices.

Korean Criminal Organizations

- **Origin**: Korean organized crime groups, often referred to as Kkangpae, have been active since the early 20th century.

- **Activities**: These groups are involved in drug trafficking, extortion, illegal gambling, and loan sharking.

- **Structure**: Korean criminal organizations tend to be less hierarchical than the Triads or Yakuza, but they still maintain a strong sense of loyalty and discipline among their members.

Southeast Asian Gangs

- **Thai Gangs**: Involved in drug trafficking, human trafficking, and extortion.

- **Vietnamese Xã Hội Đen**: Known for their involvement in drug trafficking, smuggling, and extortion.

- **Filipino Crime Gangs**: Engage in activities such as drug trafficking, kidnapping for ransom, and illegal gambling.

These organizations have a significant impact on both local and international crime, often operating across borders and collaborating with other criminal groups. Their influence extends into various sectors, including politics, business, and law enforcement, making them formidable adversaries for authorities.
